RE: State Housing Initiative Partnership (SHIP) Annual Report for periods covering State Fiscal Years 2011-12, 2012-13, and 2013-14

Attached for City Council consideration and approval is the Annual State Housing Initiative Partnership (SHIP) Report for periods covering State fiscal years 2011-12, 2012-13, and 2013-14, resolution, and required certifications. An electronic copy of the report, the signed resolution and certification will be emailed to the State Housing Finance Corporation, Tallahassee, Florida by September 15, 2014.

In 1992, the Florida Legislature adopted an extraordinary piece of legislation: The William E. Sadowski Affordable Housing Act. The Sadowski Act is of enormous significance, in that it provides both the funding mechanism for a dedicated source of revenue for state and local housing programs and a flexible but accountable framework for local programs that stimulates local economies.

The Sadowski Act provides funding for several existing state affordable housing programs including the Predevelopment Loan Program (PLP), the State Apartment Incentive Loan (SAIL) program, and the Homeownership Assistance Program (HAP). Several new state affordable housing initiatives were also established, such as the Low-Income Emergency Home Repair Program, the HOME Investment Partnerships Program, the HOPE Program, the Florida Affordable Housing Guarantee Program, the Affordable Housing Catalyst Program for Technical Assistance and Training, and the State Housing Initiatives Partnership Program (SHIP).

The City of Bradenton has participated in the State Housing Initiatives Partnership Program (SHIP) since 1992.

Certification for Regulatory Reform Implementation

State Housing Initiatives Partnership (SHIP) Program

On Behalf of The City of Bradenton (Local Government), I hereby certify that the following information is true and accurate as of the date of this submission for the following fiscal years: 2011-12, 2012-13, 2013-14 (list all three fiscal years):

1. Permits as defined in s.163.3164 (15) and (16) for affordable housing projects are expedited to a greater degree than other projects; and
2. There is an ongoing process for review of local policies, ordinances, regulations, and plan provisions that increase the cost of housing prior to their adoption.
3. The cumulative cost per newly constructed housing per housing unit, from these actions is estimated to be $ 0 .
4. The cumulative cost per rehabilitated housing per housing unit, from these actions is estimated to be $ 0 .

Status of Incentive Strategies

Incentive Strategy:

Objective 1.2 Affordable Housing
The City of Bradenton will ensure the provision of adequate affordable housing for low and moderate - income residents by housing rehabilitation and new construction of both home ownership and rental housing to address the anticipated 2030 need for 862 affordable housing units (as supported by the data). This will be achieved by the implementation of the following:

Policy 1.2.1 Development Incentives
The City of Bradenton shall continue to promote a variety of government incentives for private and non profit organizations through the revision of the City's Land Development Code and other mechanisms to develop affordable housing. These incentives that offset developer costs of producing affordable housing include, but are not limited to:
• Streamline Development Approval/ Expedite Permitting
• Reduced Permit Fees
• Impact Fee Relief
• Density Bonuses
• Height variances
• Setback Reduction
• Parking Reduction
• Flexible Lot Configuration (including zero-lot-line),
• Infrastructure Provision Assistance
• Enterprise Zone Credits
• Access to co-funding sources
• City sponsorship of Low Income Tax Credit projects
• Use of federal Section 8, HOME and CDBG funds for owner and renter occupied housing
Policy 1.2.2 Criteria to Provide Development Incentives
The City of Bradenton shall use the following specific criteria to determine what type and level of development assistance will be provided to private and non profit organizations to facilitate affordable housing developments. These criteria are:
• Location of the development
• Size (number of units)
• Type (residential, mixed use) and nature of the project
• Implementation of affordable housing design standards
• Targeted households (income, etc.)

• Market price range
• Mechanisms to ensure that housing units remain affordable
• Innovative construction technology and materials for energy efficiency and conservation.

Policy 1.2.3 Siting Standards
Utilize the following siting standards, in conjunction with criteria of Policy 1.2.2, for evaluating affordable housing developments:
• Availability of infrastructure services in the area
• Location within 0.25 mile of a mass transit stop
• Location adjacent to employment centers and services
• Location adjacent to emergency medical facilities
• Location adjacent to public facilities (libraries, parks, etc.)
Policy 1.2.4 Design Standards
Encourage the following design standards throughout affordable housing developments:
• Use of the maximum development potential through the comprehensive plan and land development regulations
• Maintain the character of the neighborhood where the project will be located
• Maintain rhythm, size and proportion of window patterns and door openings (particularly on streets facades)
• Provide the necessary architectural elements to maintain a hierarchy of scale and a unified form
• Provide recess or articulate unit entries to provide individual identities for each unit
• Avoid large and unbroken corridors
• Provision of direct and visual access to open space for residents
• Consider play areas when developing family housing
• Provide nighttime illumination from a variety of sources
• Use of landscape standards and buffers when needed to avoid nuisances and the separation of public and private areas.
• Reduced parking ratios
• Centrally located common facilities (community rooms and laundry areas)
• Use of Crime Prevention Thru Environmental Design (CPTED)
• Use of energy efficient and environmental concepts for home building
• Use of handicap accessibility standards
Policy 1.2.5 Elimination and Replacement of Affordable Units

The City of Bradenton shall require that any public development which eliminates affordable housing units shall replace at least 100% of the housing units or provide sufficient support to local affordable housing projects and initiatives.
Policy 1.2.6 Building Technology
Continue to review new construction techniques, materials, building codes and the minimum housing codes in order to determine where housing costs can be reduced without sacrificing the quality of housing and energy efficiency.

Policy 1.2.7 Codes and Regulations
The City of Bradenton shall continue to review ordinances, codes, regulations and permitting process to eliminate excessive requirements facilitating the supply of affordable/workforce housing.
Policy 1.2.8 Quality Rental Units
The City of Bradenton shall continue to facilitate the provision of a stock of quality rental units.
Policy 1.2.9 State and Federal Housing Programs
The City of Bradenton shall continue to pursue grants and any other type of State and Federal assistance for the construction and/or rehabilitation of housing units, as well as to provide rental subsidies to address needs of very low, low, and some moderateincome households.
Policy 1.2.10 Affordable Housing Advisory Committee
Maintain Local Housing Advisory Committee to oversee all local, state and federal affordable housing programs.
Policy 1.2.11 Infrastructure Improvements
The City shall continue to coordinate the use of Community Development Block Grant funds for infrastructure improvements within target neighborhoods.
Policy 1.2.12 Sewer Extension
The City shall prioritize sewer system capacity allocations for non-profit and other affordable housing projects; and the City shall evaluate the merits and feasibility of establishing a city assistance program to help with the costs of connecting homes owned or occupied by very low, low income households to sewer lines within adjacent streets.

Adopting Ordinance or Resolution Number or identify local policy:

Ordinance No. 2811 (DCA No. 10-R1), an amendment to the city's Comprehensive Plan. In addition, Section 46.63 of the city's ordinances was adopted July 2006 and it included the following information regarding incentives:
1) A schedule for implementation of expedited permit processing for affordable housing projects; and
2) an ongoing process fr review of local policies, ordinances, regulation, and comprehensive plan provision that significantly impact the cost of housing.

Implementation Schedule (Date):

The strategies defined in 46.63 are underway, and some of these strategies included in the Comprehensive Plan amendment. Other incentive strategies described in the Comprehensive Plan are still in process.

Has the plan or strategy been implemented? If no, describe the steps that will be taken to implement the plan:

Yes.

Status of Strategy - (is the strategy functioning as intended, i.e. are the time frames being met, etc.):

The strategies described in 46.63 have been implemented. Some of the strategies in the Comprehensive Plan amendment have not been implemented due to the recent slowdown in construction and the types of projects that are being presented to the city for approval. As of this date, there is one federally-funded affordable rental property underway (a 221(d)(4) property).

Support Services

Local nonprofit agencies offer courses in financial literacy and foreclosure prevention counseling. The nonprofits, as well as local banks also offer first-time homebuyer classes. Most homebuyers who received assistance from the city reported that these classes, as well as the financial literacy classes were very informative.

The city also participated as an advisor agency to the Florida Hardest Hit mortgage assistance program until June 30, 2014.

Other Accomplishments

The housing rehabilitation program has intensified its focus on making homes affordable by making improvements that are energy efficient as well as adding hurricane mitigation features to the greatest extent possible. The city will also add accessibility features as needed to a home as part of the rehabilitation process, and will add these features to a home that is otherwise in good condition.
