

# Electric Vehicle Charging Station User Guide

## 2 Types of Charging

- Level 1** Plug your own charging cord into the standard 120V outlet located behind the station's locking door.
- Level 2** Plug the station's SAE J1772™ connector into your vehicle to charge at 240V.

## Station Pricing

- Time** 24 hours daily
- Level 1** \$1.50 per hour
- Level 2** \$1.50 per hour
- Min (\$)** \$0.75 minimum
- Max (\$)** No maximum
- Max (Time)** Subject to posted parking limits where applicable

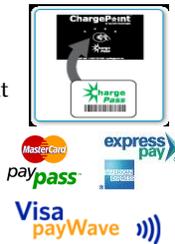

### Level 1 Charging

Use this method to charge at 120 V by plugging your own charging cord into the charging station's outlet.

#### To start a charging session:

1. Plug your own charging cord into your electric vehicle.
2. Tap your ChargePass card or RFID enabled credit card on the station's reader symbol. If you don't have either, call 1-888-758-4389 to have the station remotely authorized.

When the account is authorized, the station displays a message indicating that the door is unlocked and you can insert the plug.

**IMPORTANT! Cords with clear or transparent plugs will not work.**

3. Lift the door and plug your charging cord into the socket.
4. Push the door closed to lock in place.

Charging begins when the door locks. The station displays a message indicating that the vehicle is charging.

#### To stop a charging session:

1. Tap your ChargePass card or RFID enabled credit card on the station's reader symbol or call 1-888-758-4389.
2. Remove your charging cord from the station's socket.
3. Push the door closed to lock back in place.

**REMEMBER! Remove your charging cord from your electric vehicle and take it with you.**

### Level 2 Charging

Use this method to charge at 240 V by plugging the station's SAE J1772™ connector into your electric vehicle.

#### To start a charging session:

1. Tap your ChargePass card or RFID enabled credit card on the station's reader symbol. If you don't have either, call 1-888-758-4389 to have the station remotely authorized.

When the account is authorized, the station displays a message indicating that you can remove the connector from the holster and plug it into your electric vehicle.

2. Remove the charging station's connector by pressing down on the button at the top of the handle while pulling the connector from its holster. Plug the connector into your electric vehicle.

#### To stop a charging session:

1. Tap your ChargePass card or RFID enabled credit card on the station's reader symbol or call 1-888-758-4389.

The station displays a message that charging has finished and to return the connector to its holster.

2. Return the station's connector to its holster by pressing down on the button at the top of the handle while pulling the connector from your electric vehicle.

The station displays the charging duration and cost of your charging session.
