

PCD STAFF REPORT

Department of Planning & Community Development

PROJECT: SU.16.4644 Williams
TO: Planning Commission
FROM: Myra Schwarz, Senior Planner
DATE: December 21, 2016
APPLICANT: Brian Wood Contracting dba Wood Dock and Seawall, agent; John M. Williams, owner
WARD: 2 – Gene Brown

PROJECT SYNOPSIS:

Applicant's Request:

Special Use Permit for Dock into Manatee River

Location:

3404 Riverview Blvd (Zoned R-1)

DRC Recommendation:

Forward to Public Hearing

Staff Recommendation:

Approval with 2 stipulations

Planning Commission Recommendation:

TBD – December 21, 2016

City Council Action:

TBD – January 11, 2017

SPECIAL USE PERMIT REQUEST:

The applicant is requesting approval to construct a dock that is ±493 feet in length and ±1,980 square feet in area, that will originate on the applicant's property located at 3404 Riverview Blvd and extend into the Manatee River. A Special Use is required because the requested length of the dock exceeds the maximum 80 foot length permitted by right by the Land Use Regulations (Chapter 5.1.2.14.d.iv.)

The applicant also proposes to add two boat lifts and a 10' x 18' terminal pier to the dock.

FINDINGS OF FACT

LOCATION OF SUBJECT PROPERTY:

3404 Riverview Blvd, Parcel ID #3547000559. The subject property is located in Neighborhood 12.02.

CHARACTERISTICS OF THE SUBJECT PROPERTY: The property possesses a single-family residence, and is a waterfront property with a rear yard shoreline on the Manatee River. The subject property is the result of multiple lot splits that include a subdivision (SF.05.0003) and is Lot 1 of a 2-lot subdivision, Heathers' Landing.

FUTURE LAND USE/ ZONING: Residential Low (6 du/acre)/ R-1 Residential Single Family

FLOOD ZONE: The rear waterfront portion (± 45 feet) of the property lies within AE, BFE 7.

HISTORY/PREVIOUS ACTION RELEVANT TO APPLICANT'S REQUEST: None

ANALYSIS

REQUIRED FINDINGS FOR SU.16.4644:

- 1. Adequacy of ingress and egress to property and proposed structures with particular regard for automobiles and pedestrian safety and convenience, traffic generation, flow and control, and emergency access.**

The dock site is at the rear yard of the subject property and is a private family dock. Emergency access to the subject property is via Riverview Blvd.

- 2. Location and design of off-street parking and loading areas in regard to the items in 1, above, and the smoke, noise, glare, dust, vibrations, fumes, pollution, and other effects of the use on adjoining properties.**

The dock is for private use accessory to the subject property's residence. There will be no generation of noise, glare, fumes, or other effects to neighboring properties.

- 3. Location and design of refuse and service areas in regard to availability, adequacy, and effect upon surrounding properties.**

The subject site is a private residence. Any refuse will be managed at the residence, and no service areas exist on the site.

- 4. Utilities, in regard to location, availability, adequacy, and compatibility with surrounding properties.**

Electric service to power boat lifts will be private and included in the permit review process.

- 5. Screening, buffering, or separation of any nuisance or hazardous feature of the use.**

There will be no nuisance or hazardous features that will require buffering from adjacent properties.

6. Proposed signs and exterior lighting with reference to glare, traffic safety and compatibility, and harmony with surrounding properties.

There are no signs proposed and lighting would be limited to minimal lighting required to safely use the dock at night. Any lighting must be switched either automatically or manually so that there would be no lights on continuously. In order to meet this criterion, the following stipulation needs to be required:

- *Lighting must include a manual or automatic switch to prevent lights from continuous operation.*

7. Effect upon the value of surrounding properties; the use shall not hinder the development of nearby vacant properties, or adversely affect their economic value.

The dock will enhance the property values of existing adjacent properties and add value to the owner's property. The dock must be kept in good working order and condition to not degrade the value of nearby properties. In order to meet this criterion, the following stipulation needs to be required:

- *The dock must be kept in good working order and condition to not degrade the value of nearby properties.*

8. Adequacy of land and/or building, which are to be used.

The land is a sovereignty submerged land, and is subject to approval and permission of use by Board of Trustees of the Internal Improvement Trust Fund. A Letter of Consent is included with the FDEP exemption documentation.

9. General compatibility or appropriateness with adjacent properties and other property in the district with special consideration given to the proposed hours of operation.

The proposed dock is similar in dimension and character to surrounding docks, for private recreational boating and water enjoyment.

10. Environmental quality of the district in which the use is proposed and the effect the special exception might have on such quality.

The dock will be constructed to meet all requirements of the Department of Environmental Protection and the Army Corps of Engineers. The use of a boat lift will protect the waters from harmful paints and materials. The pilings will be installed in such a way as to provide minimal impact to the environment. The length of the dock is the minimum required to access navigable waters. The dock will be elevated in such a way as to accommodate the mean high water and seagrass for the extended length of the dock.

11. Consistency with the City of Bradenton Comprehensive Plan.

The proposed dock adheres to Goal 5 of the Coastal Management and Conservation Element, Responsible Use of Coastal Areas. "Use of coastal areas in a way which preserves natural systems..." The proposed dock is of minimum size to access

navigable waterways, and no seagrass will be impacted by the installation of the dock, pier and boat lifts.

SUMMARY OF OUTSIDE AGENCY/PUBLIC NOTIFICATION RESPONSE:

The applicant provided the required permits from the Florida Department of Environmental Protection (FDEP) dated April 15, 2016, valid for five years, and the Army Corps of Engineers, dated October 5, 2016, valid through March 22, 2018. Consent by Rule, for use of the State of Florida's Sovereign Submerged lands, is included within the FDEP approval letter.

PCD STAFF EVALUATION:

The subject property is waterfront to the Manatee River west of the mouth of Ware's Creek. This particular stretch of shoreline is characterized by wide sand shallows, where the river bottom tends to be exposed at low tide. The exposed shallows at the subject property's shoreline extend approximately 250 feet, according to Manatee County bathymetry (water depth) data. A dock of the required maximum of 80 feet would fall within the shallows at the subject location, so the extended length of the proposed dock is necessary in order to reach navigable waters. (See Exhibit "A".) Vicinity docks vary in length, from 500 feet to 30 feet, depending upon the characteristics of the shallows and river bottom. The requested 493 feet is not unreasonable, and is compatible with neighboring docks.

The proposed dock exceeds the 80 foot maximum length requirement; therefore a Special Use Permit is required:

***Land Use Regulations Chapter 2.2.1 ZONING PERMIT.** Docks and piers not meeting the criteria in Subsection 5.1.2.14 shall require Special Use approval prior to the processing of a Zoning Permit.*

***Land Use Regulations Chapter 5.1.2.14 d.iv.** In a public waterway, the maximum length of any dock shall not exceed 80 feet or 25 percent of the width of the waterway or closer than 25 feet to the center of any public channel, whichever is less.*

All other dock dimensions, including side setbacks, are compliant both with Land Use Regulations and FDEP requirements. The request includes two boat lifts, two tie-off pilings, and a terminal pier at the end of the dock, all of which are within allowed side setbacks.

The dock is to be vertically ramped to accommodate changes in seagrass and mean high water.

STAFF RECOMMENDATION:

APPROVAL of SU.16.4644 with the following stipulations:

1. The dock must be kept in good working order and condition, to not degrade from the value of nearby properties.
 2. Lighting must include a manual or automatic switch to prevent lights from continuous operation.

**WRITTEN CONSENT TO ACTION IN LIEU OF A
MEETING OF THE DIRECTORS OF
IB SPE MANAGEMENT, INC.**

Pursuant to the authority contained in Section 211 of the General Corporation Law of the State of Delaware, the adoption of the following resolutions is consented to by the undersigned, who are all of the Directors of IB SPE Management, Inc., a Delaware Corporation (the "Corporation"):

RESOLVED, that each of the persons identified below, be, and hereby is, authorized, empowered and directed to execute and deliver any and all documents and perform any and all acts that they, in their sole discretion deem necessary or appropriate for the following specific purpose, and with the specific authority:

- (1) To enter into purchase and sale contracts and any related documents to transfer, convey, sell, transfer and/or exchange properties, immovable or movable, and their component parts, all on such terms and conditions as the authorized person deems proper;
- (2) To execute and deliver limited warranty deeds related to the transfer, conveyance, sale, transfer and/or exchange of properties;
- (3) Receive and provide receipts for the purchase price of any property, immovable or movable, sold; and
- (4) Perform any other act or thing appropriate or necessary to carry out the purposes of these resolutions.

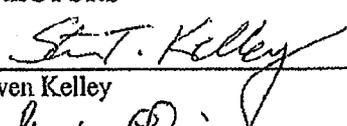

The persons designated, authorized, and empowered are as follows:

Dan Begley
Jason Block
Brian Buczko
Mark Collier
Chris Dorn
Amy Popma
Bruce Reid
Mary Rice
Neel Stacy
Wes Thompson

FURTHER RESOLVED, that any actions heretofore taken by any of the above named individuals in his or her capacity as an authorized person, as set forth above, be, and hereby are, ratified and confirmed as the authorized acts of the Corporation.

This instrument has been signed and the foregoing resolutions adopted and written consent to action effective as of the 26th day of May, 2011. This instrument shall be filed with the minutes of the proceedings of the directors of the Corporation.

**Re: John Williams
3404 Riverview Blvd.
Bradenton, FL 34205
Permit#: 164263**

This letter is to serve as a request to construct a 1,980 sqft dock, with two (2) boat lifts, as approved by The Department of Environmental Protection and The Army Corps of Engineers, for Mr. John Williams, at 3404 Riverview Blvd, Bradenton, FL 34205.

Below are the detailed responses, addressing the Review Criteria, as per your request:

1. Adequacy of ingress and egress to property and proposed structures with particular regard for automobiles and pedestrian safety and convenience, traffic generation, flow and control and emergency access.

~Not applicable: Site is at the rear of private, waterfront property.

2. Location and design of off-street parking and loading areas in regard to the items in "1" above and the smoke, noise, glare, dust, vibrations, fumes, pollution and other effects of the use on adjoining properties

~ Not applicable: Site is at the rear of private, waterfront property.

3. Location and design of refuse and service areas in regard to availability, adequacy and effect upon surrounding properties.

~ Not applicable: Site is a single-family home. There will not be any refuse.

4. Utilities, in regard to location, availability, adequacy and compatibility with surrounding properties.

~ Included in the permitting process.

5. Screening, buffering or separation of any nuisance or hazardous feature of the use.

~ Not applicable.

6. Proposed signs and exterior lighting with reference to glare, traffic safety and compatibility and harmony with surrounding properties.

~ Not applicable: Property is a single-family dock.

7. Effect upon the value of surrounding properties; the use shall not hinder the development of nearby vacant properties or adversely affect their economic values.

~ The distance from land to the main channel is approximately 500' feet. The proposed dock reaches beyond adjacent existing docks and, in compliance with The Army Corps of Engineers Permit regulations, will not adversely affect the navigable waterway or boat traffic or either neighbor. Also, the proposed dock, being well-maintained, will increase this property value, as well as the surrounding properties' values.

8. Adequacy of land and /or building which are to be used.

~ In compliance with The Army Corps of Engineers and Department of Environmental Protection Permit requirements, the proposed dock (beginning at the seawall) will be elevated 3-3.5' above the MHW (beyond the Seagrasses) for 30', to then raise to 5' above the MHW for 385' and then to lower to 3-3.5' above MHW, for the remaining 60' of dockage.

9. General compatibility or appropriateness with adjacent properties and other property in the district with special consideration given to proposed hours of operation.

~ Surrounding waterfront properties and other existing docks are as long as this proposed dock, due to the conditions of the submerged lands.

10. Environmental quality of the district in which the use is proposed and the effect the Special Use Permit might have on such quality.

~ The marine grade pilings will be installed in such a way as to provide minimal impact to the environment, be sustainable and environmentally sound and will not adversely affect the submerged lands, sea grass, wildlife or other surrounding environment.

11. Consistency with the City of Bradenton Comprehensive Plan.

~ In compliance with The Army Corps of Engineers and Department of Environmental Protection Permit requirements and consistent with other existing docks, on similar properties, on the same waterbody, the proposed dock will fit in with the responsible use of coastal areas with The City of Bradenton's Comprehensive Plan.

File No. 41-0342327-001-EG, Manatee County

Dear Mr. Williams:

On March 10, 2016, we received your notice of intent to use a General Permit (GP), pursuant to Rule 62-330.427, Florida Administrative Code (F.A.C.) to construct an approximately 1,980-square-foot single-family dock with two associated boat lifts within Manatee River, a Class III Florida waterbody. The project is located at 3404 Riverview Boulevard, Bradenton, Section 28, Township 34 South, Range 17 East, Manatee County.

Your intent to use a general permit has been reviewed by Department staff for three types of authorizations: (1) regulatory authorization, (2) proprietary authorization (related to state-owned submerged lands), and (3) federal authorization. The authority for review and the outcomes of the reviews are listed below. Please read each section carefully.

Your project did not qualify for the federal authorization, therefore, additional authorization must be obtained prior to commencement of the proposed activity. This letter does not relieve you from the responsibility of obtaining other federal, state, or local authorizations that may be required for the activity. Please refer to the specific section(s) dealing with that portion of the review below for advice on how to proceed.

If you change the project from what you submitted, the authorization(s) granted may no longer be valid at the time of commencement of the project. Please contact us prior to beginning your project if you wish to make any changes.

1. Regulatory Review – Approved

Based on the forms, drawings, and documents submitted and revised with your notice, it appears that the project meets the requirements for the General Permit under Rule 62-330.427, F.A.C. Any activities performed under a general permit are subject to general conditions required in Rule 62-330.405, F.A.C. (attached), and the specific conditions of Rule 62-330.427, F.A.C. (attached). Any deviations from these conditions may subject the permittee to enforcement action and possible penalties.

SU. 16. 4644

Please be advised that the construction phase of the GP must be completed within five years from the date the notice to use the GP was received by the Department. If you wish to continue this GP beyond the expiration date, you must notify the Department at least 30 days before its expiration.

Authority for review- Part IV of Chapter 373, F.S., Title 62, F.A.C. and in accordance with the operating agreements executed between the Department and the water management districts, as referenced in Chapter 62-113, F.A.C.

2. Proprietary Review – Granted

The Department acts as staff to the Board of Trustees of the Internal Improvement Trust Fund (Board of Trustees) and issues certain authorizations for the use of sovereign submerged lands. The Department has the authority to review activities on sovereign submerged lands under Chapter 253 of the Florida Statutes (F.S.) and 258, F.S. if located within an aquatic preserve, and Chapters 18-20 and 18-21 of the Florida Administrative Code.

The activity appears to be located on sovereign submerged lands owned by the Board of Trustees. The activity is not exempt from the need to obtain the applicable proprietary authorization. As staff to the Board of Trustees, the Department has reviewed the activity described above, and has determined that the activity qualifies for a letter of consent under Section 253.77, Florida Statutes, to construct and use the activity on the specified sovereign submerged lands, as long as the work performed is located within the boundaries as described herein and is consistent with the terms and conditions herein.

During the term of this Letter of Consent you shall maintain satisfactory evidence of sufficient upland interest as required by paragraph 18-21.004(3)(b), Florida Administrative Code. If such interest is terminated or the Board of Trustees determines that such interest did not exist on the date of issuance of this Letter of Consent, this Letter of Consent may be terminated by the Board of Trustees at its sole option. If the Board of Trustees terminates this Letter of Consent, you agree not to assert a claim or defense against the Board of Trustees arising out of this Letter of Consent.

Please be advised that any use of sovereign submerged lands without specific prior authorization from the Board of Trustees will be considered a violation of Chapter 253, Florida Statutes and may subject the affected upland riparian property owners to legal action as well as potential fines for the prior unauthorized use of sovereign land.

Authority for review - Chapter 253 F.S., and Chapter 258, F. S., and Chapter 18-21, F.A.C., and Section 62-330.075, F.A.C. as required.

3. Federal Review - SPGP Not Approved

Your proposed activity as outlined on your notice and attached drawings **does not qualify** for Federal authorization pursuant to the State Programmatic General Permit and a **SEPARATE permit** or authorization **may be required** from the Corps. A copy of your permit application has been forwarded to the Corps for their review. The Corps will issue their authorization directly to you or contact you if additional information is needed. If you have not heard from the Corps within 30 days from the date your application was received at the local FDEP Office, contact the Corps at the Tampa Regulatory Field Office at (813) 769-7073, for status and further information. **Failure to obtain Corps authorization prior to construction could subject you to federal enforcement action by that agency.**

Authority for review - an agreement with the USACOE entitled "Coordination Agreement Between the U. S. Army Corps of Engineers (Jacksonville District) and the Florida Department of Environmental Protection, or Duly Authorized Designee, State Programmatic General Permit," Section 10 of the Rivers and Harbor Act of 1899, and Section 404 of the Clean Water Act.

Additional Information

Please retain this general permit. The activities may be inspected by authorized state personnel in the future to ensure compliance with appropriate statutes and administrative codes. If the activities are not in compliance, you may be subject to penalties under Chapter 373, F.S., and Chapter 18-14, F.A.C.

NOTICE OF RIGHTS

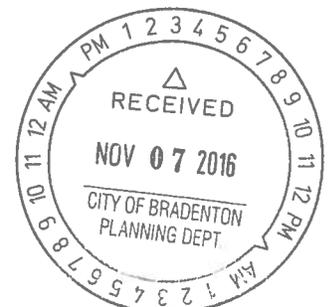

This action is final and effective on the date filed with the Clerk of the Department unless a petition for an administrative hearing is timely filed under Sections 120.569 and 120.57, F.S., before the deadline for filing a petition. On the filing of a timely and sufficient petition, this action will not be final and effective until further order of the Department. Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice.

Petition for Administrative Hearing

A person whose substantial interests are affected by the Department's action may petition for an administrative proceeding (hearing) under sections 120.569 and 120.57, Florida Statutes. Pursuant to rule 28-106.201, Florida Administrative Code, a petition for an administrative hearing must contain the following information:

- (a) The name and address of each agency affected and each agency's file or identification number, if known;
- (b) The name, address, any email address, any facsimile number, and telephone number of the petitioner; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests are or will be affected by the agency determination;
- (c) A statement of when and how the petitioner received notice of the agency decision;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- (e) A concise statement of the ultimate facts alleged, including the specific facts that the petitioner contends warrant reversal or modification of the agency's proposed action;
- (f) A statement of the specific rules or statutes that the petitioner contends require reversal or modification of the agency's proposed action, including an explanation of how the alleged facts relate to the specific rules or statutes; and
- (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wishes the agency to take with respect to the agency's proposed action.

The petition must be filed (received by the Clerk) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000 or at Agency_Clerk@dep.state.fl.us. Also, a copy of the petition shall be mailed to the applicant at the address indicated above at the time of filing.

Time Period for Filing a Petition

In accordance with rule 62-110.106(3), Florida Administrative Code, petitions for an administrative hearing by the applicant must be filed within 21 days of receipt of this written notice. Petitions filed by any persons other than the applicant, and other than those entitled to written notice under section 120.60(3), Florida Statutes, must be filed within 21 days of publication of the notice or within 21 days of receipt of the written notice, whichever occurs first. Under section 120.60(3), Florida Statutes, however, any person who has asked the Department for notice of agency action may file a petition within 21 days of receipt of such notice, regardless of the date of publication. The failure to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections 120.569 and 120.57, Florida Statutes, or to intervene in this proceeding and participate as a party to it. Any subsequent intervention (in a proceeding initiated by another party) will be only at the discretion of the presiding officer upon the filing of a motion in compliance with rule 28-106.205, Florida Administrative Code.

Extension of Time

Under rule 62-110.106(4), Florida Administrative Code, a person whose substantial interests are affected by the Department's action may also request an extension of time to file a petition for an administrative hearing. The Department may, for good cause shown, grant the request for an extension of time. Requests for extension of time must be filed with the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000, before the applicable deadline for filing a petition for an administrative hearing. A timely request for extension of time shall toll the running of the time period for filing a petition until the request is acted upon.

Mediation

Mediation is not available in this proceeding.

FLAWAC Review

The applicant, or any party within the meaning of Section 373.114(1)(a) or 373.4275, F.S., may also seek appellate review of this order before the Land and Water Adjudicatory Commission under Section 373.114(1) or 373.4275, F.S. Requests for review before the Land and Water Adjudicatory Commission must be filed with the Secretary of the Commission and served on the Department within 20 days from the date when the order is filed with the Clerk of the Department.

Judicial Review

Any party to this action has the right to seek judicial review pursuant to Section 120.68, F.S., by filing a Notice of Appeal pursuant to Rules 9.110 and 9.190, Florida Rules of Appellate Procedure, with the Clerk of the Department in the Office of General Counsel, 3900 Commonwealth Boulevard, M.S. 35, Tallahassee, Florida 32399-3000; and by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 30 days from the date this action is filed with the Clerk of the Department.

Mr. John Williams
3404 Riverview Blvd
Bradenton, FL 34205-2630

Dear Mr. Williams:

Your Department of the Army application has been assigned permit number SAJ-2016-00902. A review of the information and drawings provided shows the proposed work is to construct a construct a 1,980-square-foot single-family dock with two associated boat lifts. The project is located adjacent to the Manatee River at 3404 Riverview Boulevard, Section 6, Township 35 south, Range 17 east, Bradenton, Manatee County, Florida. Latitude: 27.502000° and Longitude: -82.596029°

Your project, as depicted on the enclosed drawings, is authorized by Regional General Permit (GP) SAJ-20. This authorization is valid until **March 22, 2018**. Please access the Corps' Regulatory webpage to view the special and general conditions for SAJ-20, which apply specifically to this authorization. The website address is as follows:

<http://www.saj.usace.army.mil/Missions/Regulatory/SourceBook.aspx>

Please be aware this web address is case sensitive and should be entered as it appears above. Once there you will need to click on "General Permits." Then you can click on the specific SAJ permit. You must comply with all of the special and general conditions and any project-specific conditions of this authorization or you may be subject to enforcement action. The following project-specific conditions are included with this authorization:

1. **Reporting Address:** The Permittee shall submit all reports, documentation and correspondence required by the conditions of this permit to the following address: CESAJ-ComplyDocs@usace.army.mil. The Permittee shall reference this permit number, SAJ-2016-00902 (GP-EWG), on all submittals.

SU. 16. 4644

2. **Commencement Notification:** Within 10 days from the date of initiating the authorized work, the Permittee shall provide to the Corps a written notification of the date of commencement of work authorized by this permit.

3. **Self-Certification:** Within 60 days of completion of the authorized work or at the expiration of the construction authorization of this permit, whichever occurs first, the Permittee shall complete the attached "Self-Certification Statement of Compliance" form and submit to the Corps. In the event that the completed work deviates, in any manner, from the authorized work, the Permittee shall describe, on the Self-Certification Form, the deviations between the work authorized by the permit and the work as constructed. Please note that the description of any deviations on the Self-Certification Form does not constitute approval of any deviations by the Corps.

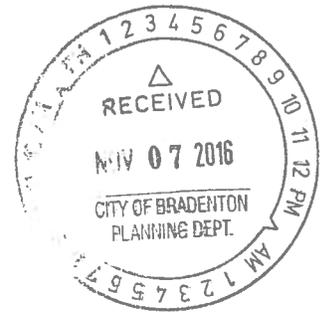

4. **Manatee Conditions:** The Permittee shall comply with the "Standard Manatee Conditions for In-Water Work – 2011" provided as an attachment to this permit.

5. **Sea Turtle and Smalltooth Sawfish Conditions:** The Permittee shall comply with National Marine Fisheries Service's "Sea Turtle and Smalltooth Sawfish Construction Conditions" dated March 23, 2006 and provided as an attachment to this permit.

6. **Dock Construction Guidelines:** The Permittee shall comply with the "Dock Construction Guidelines in Florida for Docks or Other Minor Structures Constructed in or over Submerged Aquatic Vegetation, Marsh or Mangrove Habitat – U.S. Army Corps of Engineers/National Marine Fisheries Service – August 2001" provided as an attachment to this permit.

7. **Turbidity Barriers:** Prior to the initiation of any of the work authorized by this permit the Permittee shall install floating turbidity barriers with weighted skirts that extend to within one foot of the bottom around all work areas that are in, or adjacent to, surface waters. The turbidity barriers shall remain in place and be maintained until the authorized work has been completed and all erodible materials have been stabilized.

8. **Notice of Authorization:** The Permittee shall complete and record the "Notice of Department of the Army Authorization" form (attached) with the Clerk of the Circuit Court, Registrar of Deeds or other appropriate official charged with the responsibility of maintaining records of title to or interest in real property within the county of the authorized activity. Within 90 days from the effective date of this permit, the Permittee shall provide a copy of the recorded Notice of Permit to the Corps clearly showing a stamp from the appropriate official indicating the book and page at which the Notice of Permit is recorded and the date of recording.

9. **Posting of Permit:** The Permittee shall have available and maintain for review a copy of this permit and approved plans at the construction site.

10. **Regulatory Agency Changes:** Should any other agency require and/or approve changes to the work authorized or obligated by this permit, the Permittee is advised a modification to this permit instrument is required prior to initiation of those changes. It is the Permittee's responsibility to request a modification of this permit from the Tampa Permits Section. The Corps reserves the right to fully evaluate, amend, and approve or deny the request for modification of this permit.

11. **Cultural Resources / Historic Properties:** No structure or work shall adversely affect impact or disturb properties listed in the National Register of Historic Places (NRHP) or those eligible for inclusion in the NRHP. If during the ground disturbing activities and construction work within the permit area, there are archaeological/cultural materials encountered which were not the subject of a previous cultural resources assessment survey (and which shall include, but not be limited to: pottery, modified shell, flora, fauna, human remains, ceramics, stone tools or metal implements, dugout canoes, evidence of structures or any other physical remains that could be associated with Native American cultures or early colonial or American settlement), the Permittee shall immediately stop all work and ground-disturbing activities within a 100-meter diameter of the discovery and notify the Corps within the same business day (8 hours). The Corps shall then notify the Florida State Historic Preservation Officer (SHPO) and the appropriate Tribal Historic Preservation Officer(s) (THPO(s)) to assess the significance of the discovery and devise appropriate actions.

12. **Assurance of Navigation and Maintenance:** The Permittee understands and agrees that, if future operations by the United States require the removal, relocation, or other alteration, of the structures or work herein authorized, or if, in the opinion of the Secretary of the Army or his authorized representative, said structure or work shall cause unreasonable obstruction to the free navigation of the navigable waters, the Permittee will be required, upon due notice from the U.S. Army Corps of Engineers, to remove, relocate, or alter the structural work or obstructions caused thereby, without expense to the United States. No claim shall be made against the United States on account of any such removal or alteration.

This authorization does not obviate the necessity to obtain any other Federal, State, or local permits, which may be required. Prior to the initiation of any construction, projects qualifying for this Regional General permit must qualify for an exemption under section 403.813(1), F.S. or 373.406, F.S., or otherwise be authorized by the applicable permit required under Part IV of Chapter 373, F.S., by the Department of Environmental Protection, a water management district under section 373.069, F.S., or a local government with delegated authority under section 373.441, F.S., and receive Water

Quality Certification (WQC) and applicable Coastal Zone Consistency Concurrence (CZCC) or waiver thereto, as well as any authorizations required for the use of state-owned submerged lands under Chapter 253, F.S., and, as applicable, Chapter 258, F.S. You should check State-permitting requirements with the Florida Department of Environmental Protection or the appropriate water management district.

This authorization does not include conditions that would prevent the 'take' of a state-listed fish or wildlife species. These species are protected under sec. 379.411, Florida Statutes, and listed under Rule 68A-27, Florida Administrative Code. With regard to fish and wildlife species designated as species of special concern or threatened by the State of Florida, you are responsible for coordinating directly with the Florida Fish and Wildlife Conservation Commission (FWC). Permittees can visit the FWC license and permitting webpage (<http://www.myfwc.com/license/wildlife>) for more information, including a list of those fish and wildlife species designated as species of special concern or threatened. The Florida Natural Areas Inventory (<http://www.fnai.org>) also maintains updated lists, by county, of documented occurrences of those species.

If you are unable to access the internet or require a hardcopy of any of the conditions, limitations, or expiration date for the above referenced GP, please contact Edgar W. Garcia by telephone at 813-769-7062 or electronic mail at Edgar.W.Garcia@usace.army.mil.

Thank you for your cooperation with our permit program. The Corps Jacksonville District Regulatory Division is committed to improving service to our customers. We strive to perform our duty in a friendly and timely manner while working to preserve our environment. We invite you to visit http://corpsmapu.usace.army.mil/cm_apex/f?p=regulatory_survey and complete our automated Customer Service Survey. Your input is appreciated – favorable or otherwise. Again, please be aware this Internet address is case sensitive and should be entered as it appears above.

CESAJ-RD-PE

RIVERS AND HARBORS ACT SECTION 10 DETERMINATION OF JURISDICTION

Project Name: WILLIAMS, JOHN / DOCK AND LIFTS

Action ID: SAJ-2016-00902

Applicant:

Mr. John Williams
3404 Riverview Blvd
Bradenton, FL 34205-2630

There are "navigable waters of the U.S." within Rivers and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.

Waterbody: Manatee River.

Waters have been determined to be navigable because:

- Navigation Study
- Judicial interpretation in a Federal court of law
- Waters subject to the ebb and flow of the tide
- Waters are presently used, or have been used in the past, or may be susceptible for use to transport interstate or foreign commerce. **Explain:**

Project Manager: Edgar W. Garcia

Date: 05 Oct 2016

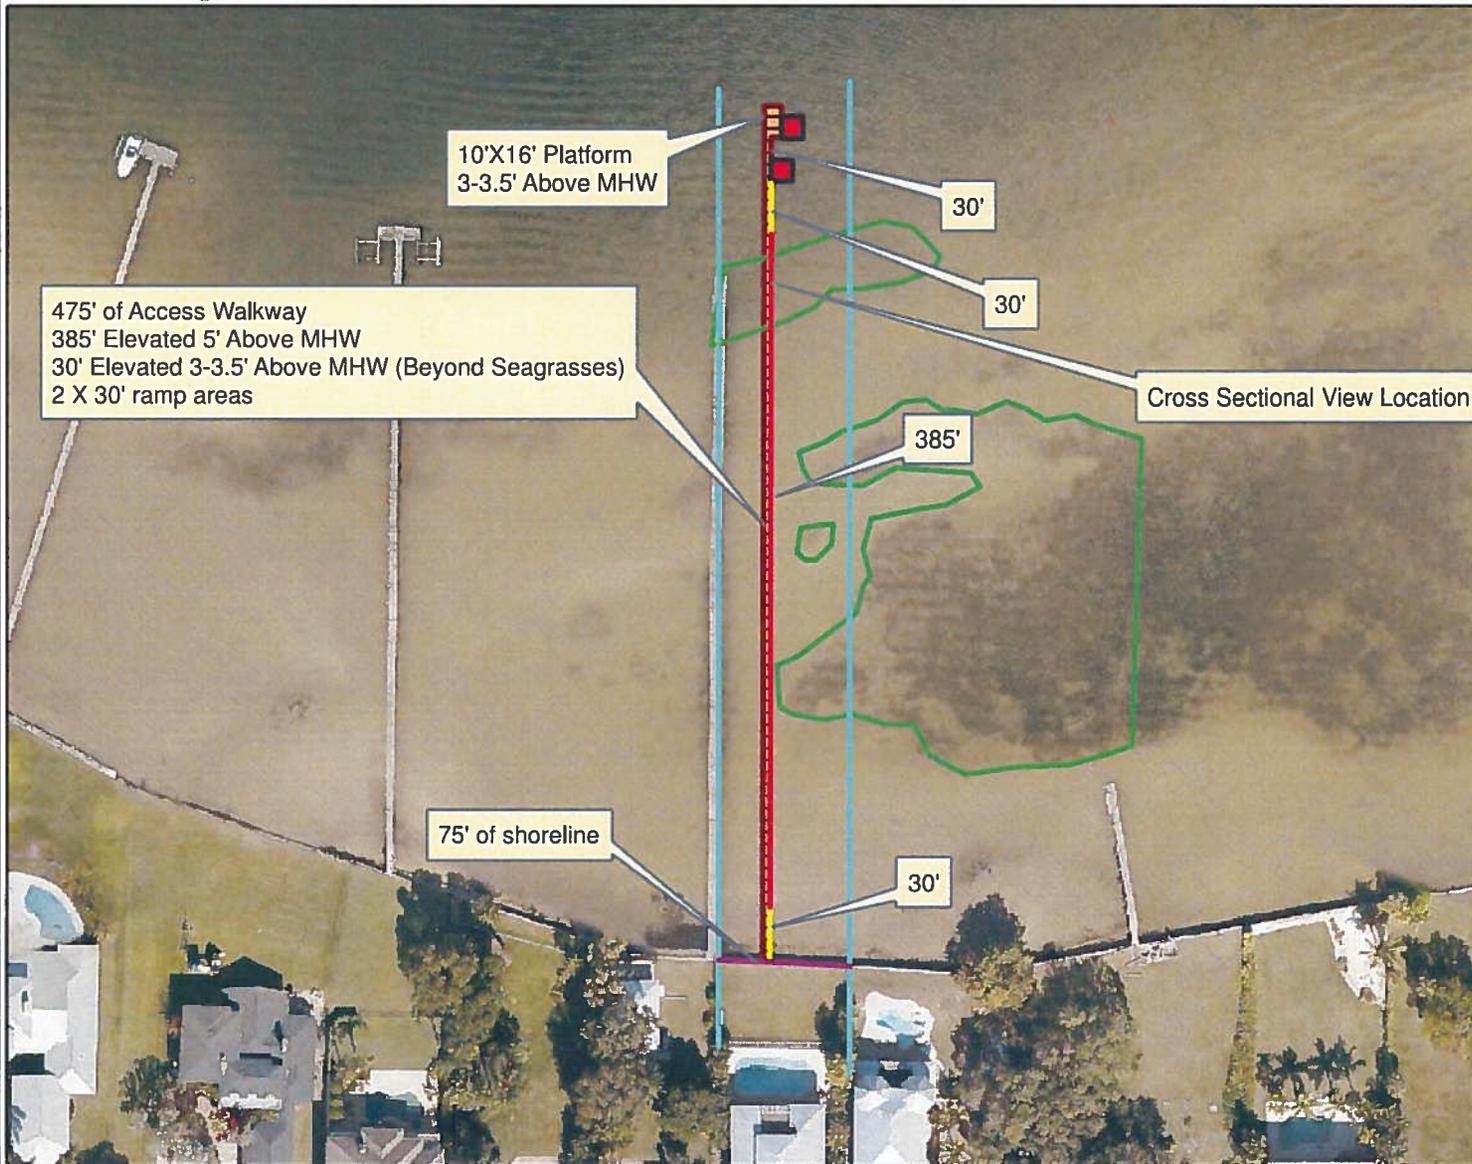

Project Location: Manatee River

The project is located adjacent to the Manatee River at 3404 Riverview Boulevard, Section 6, Township 35 south, Range 17 east, Bradenton, Manatee County, Florida. Latitude: 27.502000°, Longitude: 82.596029°.
